Development Request One-Pager

For simple and minor development requests — attach to intake form submission

REQUEST OVERVIEW

Client / Project	Northwind Components - NetSuite Support 4521
Requested By	Pat Lindqvist
Request Type	Minor Enhancement

BUSINESS CONTEXT

Purchasing approves vendor returns over email, which delays vendor credits.

Without a routed approval, returns above the credit threshold are sometimes processed without review.

CURRENT STATE VS. DESIRED STATE

Current State	Desired State
Returns are approved by email. - No audit trail in NetSuite. - Approver is chosen by the requester.	Returns route to the approver for the vendor. - Approval is recorded on the return. - Rejections include a comment.

REQUEST DETAILS

Change: Add an approver field to the Return Authorization record and a user event that creates an approval task.

- Script: User Event on Return Authorization
- Field: Approver on the Vendor record
- Saved search: Returns pending approval
 - Columns: Vendor, Amount, Age

SCOPE & CLIENT GUARDRAILS

In Scope	Out of Scope / Constraints
- Approver field on Vendor - Approval task creation	- Changes to vendor credit posting - Notifications to vendors

OPEN QUESTIONS

#	Question	Owner	Status
OQ-01	Which amount threshold requires finance approval?	Owner TBD	Open
OQ-02	Who approves when the vendor has no approver set?	Pat Lindqvist (Northwind)	Open
