

ETHOS BUSINESS SOLUTIONS

Development Request One-Pager

For simple and minor development requests — attach to intake form submission

REQUEST OVERVIEW

Client / Project	e.g. Core Transformers — NetSuite Phase 1
Requested By	Full name
Request Type	Bug Fix Config Change Reporting/Data Minor Enhancement

BUSINESS CONTEXT

Briefly explain the business need or problem this request addresses. Why is this needed? What is the impact if it is not resolved?

Describe the business need here...

CURRENT STATE VS. DESIRED STATE

Describe what is happening today and what you would like to happen after this request is completed.

Current State	Desired State
What is happening today?	What should happen instead?

REQUEST DETAILS

Describe the specific change or fix being requested. Include any relevant steps to reproduce (for bugs), affected records, fields, scripts, or workflows. Attach screenshots if helpful.

Describe the specific request, impacted areas, and any known guardrails or constraints from the client...

SCOPE & CLIENT GUARDRAILS

List anything that is explicitly in scope, out of scope, or any client constraints that must be respected during development.

In Scope	Out of Scope / Constraints
e.g. Update field logic on Sales Order record	e.g. Changes to Invoice record not included

OPEN QUESTIONS

List any unresolved questions that need to be answered before or during development. Identify the owner for each.

#	Question	Owner	Status
OQ-01			Open

OQ-02			Open
OQ-03			Open
